

Watermark (formerly known as AVISO) Student App Instructions

Student success goes beyond enrolling and attending classes. Planning work-school-family schedule, keeping communication open with instructors, awareness of grade standing, attendance, finances, campus resources, and community resources can play a big role on student's success and graduation. MCC has launched the use of the Watermark Student App to aide students on finding essential information in a smoother and faster way. Students will be able to receive and send messages to their instructors and advisors and will be able to be-on-the-know on current grade standing, attendance, and other important information that will enhance student's college navigation skills and engagement.

How to Install the Watermark Student App:

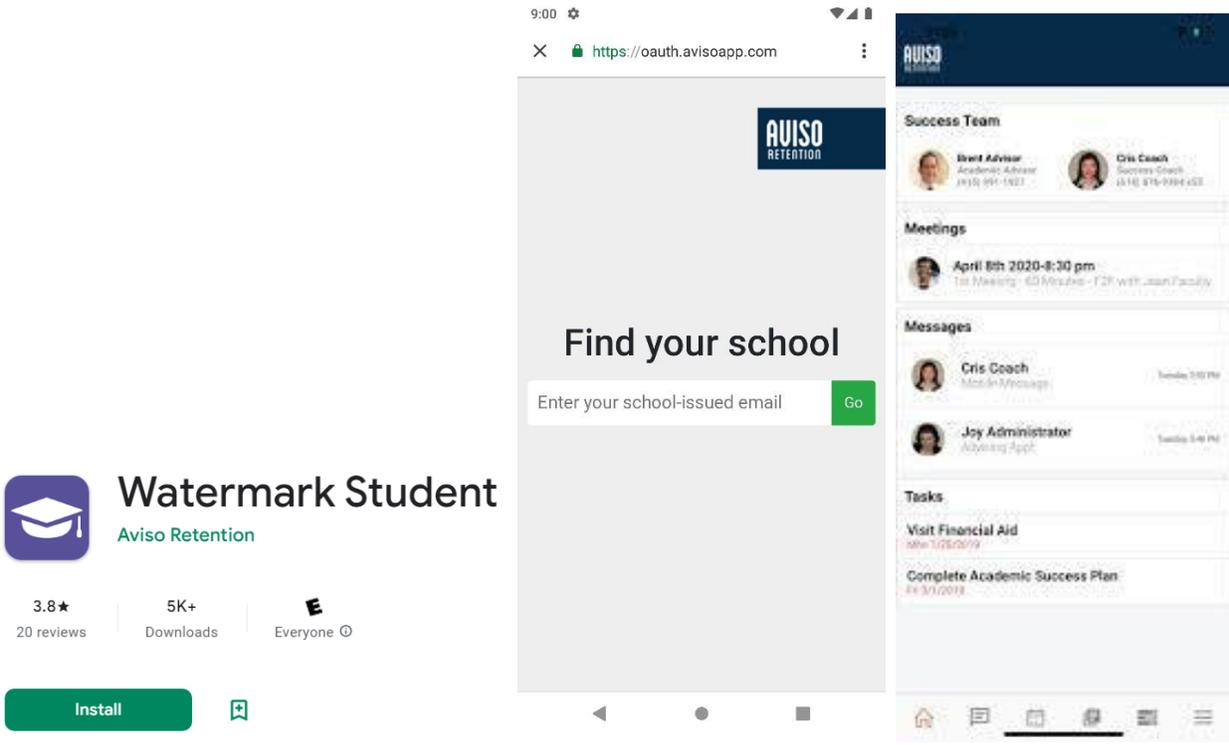

1. Go to your "App store" (IOS or Android) and download the app. The app will have the logo shown on the top of this page.
2. Click "continue" when you are asked to use the Watermark/Aviso Student App after the installation.
3. Enter your MCC email in the "Find your school" box. Click the green button. Your email looks like this: lastname+firstinitial+lastfournumbersof yourstudentID@student.montgomery.edu
4. Click "yes" on authorizing Watermark/Aviso to send you pushed notifications.

****Be aware that your device may need to allow some security and memory space to install this app****

Please use the screenshots below as a guide only. Once the installation is completed, students will be able to view student information, final grades from previous semesters, current courses schedule, current grade standing, current attendance records, absences, messages from instructors, staff or success coaches, and be able to send messages to instructors, staff or success coaches.

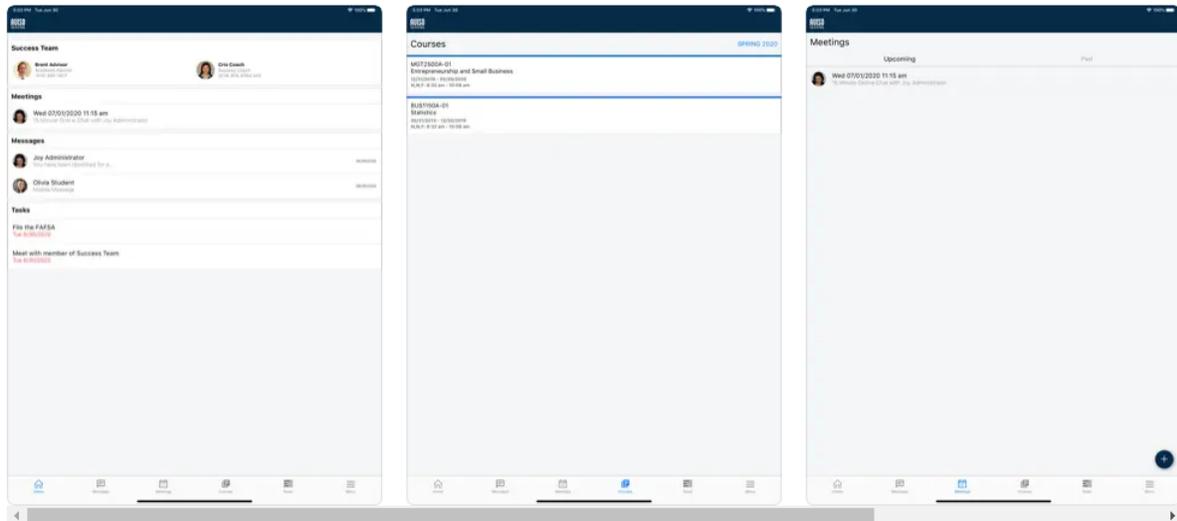

If you need assistance with the WATERMARK Student App installation, stop by the Counseling Center, located in room 129, in the Blair Building (100), or email Melanie Taylor at taylor8227@montgomery.edu or call 910-898-9618.

Screenshots Guide - Watermark Student App Installation

The image displays the App Store listing for the "Watermark Student" app by Aviso Retention. The app has a 3.8-star rating from 20 reviews, over 5K downloads, and is available for everyone. A green "Install" button is visible. To the right, a mobile app interface is shown, featuring a "Find your school" screen with an email input field and a "Go" button. The app's main dashboard includes sections for "Success Team" (listing an Event Advisor and Cris Coach), "Meetings" (with a meeting on April 8th), "Messages" (from Cris Coach and Joy Administrator), and "Tasks" (including "Visit Financial Aid" and "Complete Academic Success Plan").

Screenshots iPad iPhone

Three screenshots of the Watermark Student app on an iPad are shown side-by-side. The first screenshot displays the "Success Team" and "Meetings" sections. The second screenshot shows the "Courses" section, listing "BUS13024-01 Entrepreneurship and Small Business" and "BUS11004-01 Statistics". The third screenshot shows the "Meetings" section with an "Upcoming" meeting on Wednesday, 07/01/2020 at 11:15 am.

Students who are engaged are statistically proven to be more successful. Now it's your turn! Watermark Student helps you engage with your college Success Team, ensuring that you earn the certificate or degree you deserve.
