

Dennis Pendry

Dennis Pendry is a life-long firearms enthusiast born in Winston-Salem, NC. He started working with the Kalashnikov system in 2002, when the first batch of Romanian parts kits were imported and were plentiful. Not long after that he was employed as a contractor to maintain and repair Kalashnikov rifles in the Triad area of NC by local shops that had a lack of experience in the Soviet system of small arms. Since then, there hasn't been a model or type he hasn't built or repaired through his two decades of experience. Dennis loves to share his enthusiasm for the Kalashnikov family of rifles and has a passion to share his knowledge at the firing range and in the classroom.
